Important events to report: Measures taken in the context of COVID-19**

Given the evolution of the epidemiological situation caused by the spread of the COVID -19 virus, we inform you about the following measures taken by CEMACON SA in order to protect the health of all our employees, clients and partners, as well as to adapt our business to the context of the market, which is foreshadowing uncertainly in the following months:

- Implementation of a plan of additional measures to protect the health of the employees and to provide the necessary materials and equipment: disinfectant solutions, protective masks, visors;
- Implementation of a system of work by rotation and work from home, in the case of positions where this is possible, so that social distancing can be ensured;
- Ensuring the stocks of finished bricks and mortar products, necessary for the next period, so as to ensure continuity in serving the customers;
- Decrease of the production activity during April-May 2020 and use of the human resources available for carrying out maintenance operations on all equipment, considering that during the last 5 years, due to the high demand from the market, it was not possible to carry out a general technical review.
- Ensuring the social protection measures for the employees affected by the diminution of the activity, in the context in which the assurance of the business continuity and the maintenance activity will be made with a smaller number of employees.

We will permanently follow the evolution of the epidemiological situation and we will take all the necessary measures, so as to ensure the continuity of the business and to resume the activity in normal regime as soon as possible.

Liviu-Ionel Stoleru
Chairman of the Board
